SUMMARY

Frontend Developer & UI/UX Designer Skilled professional with 4 years of experience in designing and developing engaging, user-friendly, and responsive interfaces. Proficient in modern front-end technologies, design principles, and creating seamless user experiences. Dedicated to delivering innovative, functional, and aesthetically pleasing digital products.

WORK EXPERIENCE

Frontend Developer & UI/UX Designer, Risians Infotech LLP, New Delhi   ➢ **May 2022 - Present**

We are seeking a talented and creative *Front-End Developer and UI/UX Designer* to join our dynamic team. The ideal candidate will be passionate about designing intuitive, user-friendly interfaces and translating them into functional and responsive web applications. If you are driven by a desire to create exceptional digital experiences and have a strong technical background, we'd love to hear from you!

- ➢ Transform UI/UX designs into pixel-perfect, responsive front-end code using HTML, CSS, and JavaScript.
- ➢ Optimize performance for speed and scalability across different devices and browsers.
- ➢ Create intuitive and user-friendly interfaces based on user research and feedback.
- ➢ Develop wireframes, prototypes, and high-fidelity designs using tools like Figma, Adobe XD, or Photoshop
- ➢ Conduct usability testing to gather actionable insights for improving user experience.
- ➢ Ensure designs align with brand guidelines and meet accessibility standards.

Collaboration & Communication

- ➢ Work closely with product managers, developers, and stakeholders to understand project requirements.
- ➢ Ensure consistent communication and clear documentation of design and development processes.
- ➢ Stay updated with industry trends and implement best practices in design and development.

Frontend Developer & UI/UX Designer, AIG Technologies, Noida   **Jan 2021 - Apr2022**

AIG Technologies, a leader in [describe key business domain of AIG Technologies], is looking for a talented Front-End Developer and UI/UX Designer to join our team in Noida. The ideal candidate will play a dual role of designing exceptional user interfaces and implementing them into high-quality front-end code. You will work on exciting projects that push the boundaries of innovation and usability.

- ➢ Designed intuitive interfaces for web-based educational platforms using tools like Figma, Adobe XD and Photoshop.
- ➢ Collaborated with product managers, developers, and education experts to align designs with user needs and business goals.
- ➢ Developed interactive prototypes to visualize user journeys and improve usability.
- ➢ Used HTML, CSS, Bootstrap, and JavaScript to implement responsive designs compatible with multiple devices.
- ➢ Conducted user research, including surveys and testing sessions, to identify pain points and optimize workflows.
